90L Polyethylene Fuel Tank

For any customer, keeping fuel costs down and staying within fuel capacities specific to different regions are today's biggest challenges. Thermo King now offers a 90 litre plastic fuel tank option that will cater for countries with two fuel taxes and those countries that have tight regulation on fuel volumes.

The Thermo King polyethylene fuel tank is an essential component of a total fuel management system. When integrated with Thermo King's fuel level sensors and optional lockable caps, it enables you to manage and secure your fuel consumption and costs more efficiently.

The additional on-truck capacity provided by the Thermo King polyethylene fuel tank cuts running costs and reduces the impact of fuel restrictions in your region. The impact and corrosion-resistant fuel tank with 90 litre capacity is safe, light and easy to install.

Description	SPN
90L Polyethylene Fuel Tank	● 120950
Installation Kit	● 900428
Lockable Caps	△ 119629
Electronic Fuel Gauge	△ 131132
LED Corner-Mounted Display	△ 401032
POS Option (Tank & Installation Kit)	● 702517

● Standard △ Optional

Key Features

- Approved for diesel and bio-diesel
- Vibration resistant as per Thermo King standards
- Mechanical fuel gauge with option to upgrade to electrical
- Galvanised drain plug as standard
- Quicker installation with quick fuel line connections
- A lighter tank (12 kg)
- Corrosion resistant installation kit (e-coated)

Dimensions in millimetres

Technical Specifications

Impact- and corrosion-resistant (FEA, TÜV, vibration, salt spray, e-coating)

Stackable in pallets of 8

Galvanised drain plug to avoid previous issues

Easy-to-read standard fuel gauge, with electric gauge option

lightweight - installed weight 45% (12kg)
