TouchPrint Printer

Temperature data printing for Thermo King trailer & truck applications

Thermo King's TouchPrint printer is compact, easy to use, flexible to operate and quick to generate printouts.

Ease of use
- Intuitive interface with capacitive touchscreen
- Quick navigation with icons and shortcut keys
- Choice of 17 languages on the display and printouts

Flexibility
- Includes 2 operation modes to retrieve Thermo King temperature recorder data
- Print reefer setpoint on Thermo King units equipped with CargoWatch or DAS IV
- Can be installed in any standard radio DIN slot or mounted on dashboard
- Also available in weatherproof IP 66 enclosure for standard trailer mount
- Installation Kit PN902613

USB Interface
- Soft copy export of tickets (.pdf/.txt) to USB flash drive
- Firmware update via mini USB port

Connectivity
- 1 Serial communication port (RS232) for connection to:
  - CargoWatch 4Mb & 8Mb data loggers
  - DAS IV data loggers
- Regular data transfer to avoid buffer and delay
- Baud rate and language aligned between Thermo King data logger and printer

Printout
- Quick and easy printout of delivery, journey or multiday tickets
- Printing based on date/time or Start of Trip (SOT)
- High speed thermal printer
- Rapid replacement of printer paper

Storage
- 8Mb memory for temporary data storage
- Temperature records organised by date and time
- Possibility to retrieve and print old readings held in TouchPrint printer memory

Efficiency
- Auto sleep mode
- Low power consumption to avoid reefer battery drainage
- Printer protection algorithm at high and low ambient

Warranty
- Covered under Thermo King warranty for a period of 2 years
- Complies with EMC requirements UN ECE NR 10 (E mark)

New in-cab install kit
- Compact design to mount TouchPrint
- Easy accessibility to TouchPrint function buttons
- Flexibility in mounting locations (flat surface only)
- Dashboard mount
- Wall mount
- Ceiling mount
- PN 903459
